Hi there

I am a website designer from Kent.

I look forward to joining in here.

Hi Clare,

Great testimonials on your site. When did you set it up? Do you just use google-ads to promote?

Re:Hi Everyone

Hiya Suze,

Thanks for the comments. I set up the business last year and have gone from strength to strength. I have never used google adwords - luckily we have got most of our work by word of mouth and by other forms for advertising.

We love working with small businesses and start ups as well because it gives a great sense of accomplishment when a new site gets going and really takes off.

Hiya

Out of interest what forms of advertising do you use?

Foles

All over really. We use all the free advertising sites. We also are listed on a lot of directories and of course word of mouth.

Clare
